IPAI Mini

The IPAI Mini is a specialised car seat designed for children who need more support than a standard booster can offer, in a compact size suited to smaller users. With tilt-in-space, recline, adjustable lateral trunk supports and a 5-point harness, it helps maintain a safe and comfortable posture during vehicle travel. A 90° swivel base, ISOFIX installation and tool-free adjustments make transfers and everyday use easier for families and caregivers.

The versatile car seat for complex needs in a more compact size

Adjustable lateral trunk supports Integrated trunk supports can adjust in width, height and angle to promote safe alignment during travel.

Reduced-access buckle Supports safety for users at risk of unbuckling.*

Secure 5-point harness Provides support to help maintain postural alignment and assists in the management of behaviours of concern, providing safety and peace of mind.

ACCESSORIES

IPAI Mini Padded Tray Table
4080-2535-000

Modular accessories to tailor support

- Medial thigh support
- Seat depth extension
- Upper limb support tray
- Cushions as needed
- Reduced access buckle
- Foot support

Swivel base for easier transfers 90° rotation so caregivers can position the seat towards the door, reducing awkward lifting and twisting.

Stepless back recline and growth adjustability
Back height, recline and infill sections can adapt as the child grows from 100–125 cm.

Code	Seat Width (cm)	Seat Depth (cm)	Shoulder Height (cm)	Lateral Height (cm)	Lateral Width (cm)	Car Seat Weight (kg)	Capacity (user height in cm)
4080-2000-000	25	26	30 - 43	17 - 31	14 - 23	13	100-125

Safety tested to European and Australian standards: Tested to the latest European safety standard (ECE R129) and assessed through AuSAP.

* Optional extra.
